

CLO's Sample OALCF Implementation Tracking Form

March 28, 2012

Community Literacy of Ontario has developed a sample Ontario Adult Literacy Curriculum Framework Implementation Tracking Tool to support LBS agencies by capturing the different ways that LBS agencies are working towards implementation of the OALCF.

This tracking tool has been developed based primarily on the OALCF Self-Assessment Form that was part of MTCU's service delivery agencies' business plan, last year and reflects MTCU resources that are available as of April 2012. In this tracking form a number of example implementation activities are provided to generate ideas and to get agencies thinking about documenting what they are currently doing and what they will be working towards in the coming year.

CLO has developed this tool in a Word format to enable agencies to use and adapt the form to reflect the realities of implementation.

Community Literacy of Ontario has divided this sample tracking form into the following four areas:

- 1. Transition-Oriented Programming
- 2. Service Coordination
- 3. Task-Based Approach
- 4. Task-Based Assessment

Use of this form is completely voluntary. Community Literacy of Ontario sincerely hopes that you find our sample OALCF Implementation Tracking Form useful and we would welcome any feedback that you might have.

CLO's Sample OALCF Implementation Tracking Form SECTION ONE: Transition-Oriented Programming Our agency has policies, practices and programming that, first and foremost, support successful learner transitions.		
Implementation Indicator	Evidence	What activities/ actions will we take to continue/further implementation?
Maintain strong working relationships with next step destinations through regular communication	 Some examples: we keep our partners informed by email/letters we look at our exits and our 3-month follow-up data to see where the learners go at exit and where they are 3 months later Evidence: (Details of how examples are achieved or where the evidence is located)	
Demonstrate a comprehensive understanding of learner next steps, in learner files and other program documents, based on current information, documents and communication with external agencies	 Some examples: we document the next step destinations for our learners (i.e., employment, Employment Services, post secondary education, apprenticeship) we work to increase all learners' understanding of the requirements of next step destinations we know how many learners left before meeting their goals and we have analyzed why this might be happening Evidence: (Details of how examples are achieved or where the evidence is located) 	

CLO's Sample OALCF Implementation Tracking Form SECTION ONE: Transition-Oriented Programming		
Implementation Indicator	Evidence	What activities/ actions will we take to continue/further implementation?
Clearly inform curriculum planning and daily activities by next step requirements	 Some examples: we show the relationship between the goals, assessment and learner plans of our learners we make it explicit that there is a connection to next steps for learners we update learner plans frequently we include the participant registration Form, the Learner Plan complete with goal and goal-related activities, tasks, milestones, and any other assessment information Evidence: (Details of how examples are achieved or where the evidence is located)	
Follow up results reveal that most learners make the connection between LBS/AU/AUP and their transition success	 Some examples: we look at our exits and our 3-month follow-up data to see where the learners go at exit and where they are 3 months later we improve our information and referral service based on client feedback we improve our information and referral service based on client feedback Evidence: (Details of how examples are achieved or where the evidence is located)

CLO's Sample OALCF Implementation Tracking Form SECTION TWO: Service Coordination Our agency enhances service co-ordination through effective referrals, a common understanding of assessment and shared information about program and services		
Implementation Indicator	Evidence	What activities/ actions will we take to continue/further implementation?
Referral protocols are well established for all key stakeholders including LBS/AU/AUP, other EO services and community agency partners	 Some examples: we know the Employment Service providers in our community and have updated our stakeholder list we document additional supports required in the Learner Plan and referral results we coordinate and integrate services to provide learners with supported access to other services to help them achieve their goals we have referral protocols we track, report and analyze information and referral activities we look at our exits and our 3-month follow-up data to see where the learners go at exit and where they are 3 months later we improve our information and referral service based on client feedback Evidence: (Details of how examples are achieved or where the evidence is located)	

Implementation Indicator	Evidence	What activities/ actions will we take to
Fatamal and internal		continue/further implementation?
External and internal stakeholders share a	Some examples:	
common understanding of	 we use the same referral form as our partners we keep our partners informed by email/letters 	
assessment results	 we keep our partners informed by email/letters we have reviewed our assessment process with key stakeholders 	
	Evidence: (Details of how examples are achieved or where the evidence is located)	
Other EO program clients (non LBS Program) as well as other external program and service providers are kept well-informed of the full range of available LBS, AU and AUP programs and services	 Some examples: we have done a presentation / outreach to partners to inform them about our services we evaluate our outreach activities we know which non-LBS agencies participated in the Literacy Services Plan we are a member of an interagency committee/ network Evidence: (Details of how examples are achieved or where the evidence is located)

CLO's Sample OALCF Implementation Tracking Form SECTION THREE: Task-Based Approach Our agency selects instructional strategies, curriculum content and supporting resources that build learner capacity to complete tasks associated with transitional goals		
Implementation Indicator	Evidence	What activities/ actions will we take to continue/further implementation?
Agency is clear about the difference between tasks and skills and the difference between a task- based and a skills-based approach and uses the approaches appropriately and consistently	 Some examples: We have processes and policies in place to ensure staff, learners and tutors understand a task-based approach to learning we identify tasks required for the learner goal through researching the goal requirements We have up-to-date assessment tools Evidence: (Details of how examples are achieved or where the evidence is located)	
Agency identifies Essential Skills (ES) as they appear in tasks related to life, learning and work and knows the relationship between ES and OALCF tasks	 Some examples: Our agency staff understand Essential Skills Essential Skills are incorporated into the learner plans we use Essential Skills related materials when appropriate to the learners' goals we are aware of how the relationship of the levels in the OALCF competencies and the Essential Skills Evidence: (Details of how examples are achieved or where the evidence is located)	

CLO's Sample OALCF Implementation Tracking Form SECTION THREE: Task-Based Approach		
Implementation Indicator	Evidence	What activities/ actions will we take to continue/further implementation?
Curriculum planning, instructional approaches and daily activities begin and end with goal-related tasks but include skills-based learning in appropriate measure as needed by the learner	 Some examples: we have explained to the learners the purpose of their learning/instruction we have identified the tasks required for the learner goal we have conducted assessments that identify gaps in competencies and related skills required for the learners' goal we are using task-based programming for all learners we use skills-based learning as required by learners to complete tasks related to their goals Evidence: (Details of how examples are achieved or where the evidence is located)

CLO's Sample OALCF Implementation Tracking Form SECTION FOUR: Task-Based Assessment Our agency has an overall assessment strategy that demonstrates our capacity to select and use appropriate task-based and other than task-based tools and methods for initial, ongoing and exit assessments that are directly related to learner goals		
Implementation Indicator	Evidence	What activities/ actions will we take to continue/further implementation?
Agency understands the difference between task- based and skills-based assessment	 Some examples: we use a variety of task-based assessment method/tools when necessary, we use a variety of skills-based assessments we have read the Selected Assessment Tools resource to increase our understanding of different tools for different assessment purposes Evidence: (Details of how examples are achieved or where the evidence is located) 	
Agency chooses assessment tools and methods that are appropriate to the learners' goals and that reveal the learner's ability to apply learning.	 Some examples: we use a variety of assessment tools including some that are referenced/validated in the Selected Assessment Tools resource We determine learning activities that are goal-related We select tasks that are related to the learners' goals We select milestones that are related to the learners' goals If appropriate, we select a culminating task related to the learners' goal Evidence: (Details of how examples are achieved or where the evidence is located) 	

CLO's Sample OALCF Implementation Tracking Form SECTION FOUR: Task-Based Assessment		
Implementation Indicator	Evidence	What activities/ actions will we take to continue/further implementation?
Agency staff is clear about what they want to measure and choose assessment tools appropriate to the purpose.	 Some examples: Our staff is familiar with goal path requirements Our staff understands how to select and use appropriate assessment tool s and interpret the results of the assessments We use assessment tools that are appropriate, meaningful, and understandable to the learner We use assessment tools that are suitable for informing the learning activities outlined in the learner plan Evidence: (Details of how examples are achieved or where the evidence is located) 	
Our agency tracks learner achievement in relation to learner goals and goal completion.	 Some examples: We track learners' progress & achievements in the Learner Plan and in EOIS CaMS We assess the achievements of learners at entry, on an ongoing basis, and at exit We complete and track milestone completion in EOIS CaMS We complete and track goal-related activities We ensure that learners' are able to complete goal-related tasks, at exit If relevant, learners complete a culminating task, which is recorded in EOIS CaMS We maintain up-to-date learner files 	
	(Details of how examples are achieved or where the evidence is located)	

CLO's Sample OALCF Implementation Tracking Form SECTION FOUR: Task-Based Assessment		
Implementation Indicator	Evidence	What activities/ actions will we take to continue/further implementation?
Our agency has an assessment strategy to describe what tools are used for what purpose (initial, ongoing, exit assessment), for which transition path and under what circumstances the assessment is conducted and there is a process used for assessment results to inform overall agency targets.	 Some examples: We have an assessment strategy in place that describes what tools are used for intake, ongoing, and exit assessment for each goal path We have assessment policies We use the template in the Selected Assessment Tools Resource to evaluate assessment tools We ensure that Milestone and Culminating task activities are kept secure Evidence: (Details of how examples are achieved or where the evidence is located)
